Everest Software is *Your Business Operating System*
Everest® Advanced is a truly integrated, real-time business operating system designed specifically for small and medium-sized businesses (SMBs). Everest simplifies the day-to-day tasks you do to keep your business running, allowing you to operate more effectively and efficiently and in return gain greater control of your business.

With Everest you can access accurate information about every aspect of your business *immediately* from one integrated database. Unlike other software solutions, Everest was developed with all the functionality you need to run your entire business. This eliminates the need to tie together individual software products and allows Everest to become *Your Business Operating System*.

Accounting
- Eliminate the cost of re-entering transactions and data with Accounting functions integrated to all areas of your business
- Improve cash flow with better visibility into accounts receivable
- Improve staff efficiency with easy reconciliation of information
- Detect and deter fraud with audit trails

Inventory
- Track available-for-sale quantity with real-time updates based on sales, purchases and returns from all channels
- Fulfill more orders by configuring logical picking routes
- Easily track stock status for products that are bought and sold in multiple units of measure
- "Put-away" bins can be pre-configured to recommend an efficient and consistent way to carry products

Order Entry
- Allow sales people to quickly negotiate pricing with built-in margin and profit analysis
- Cut order processing time in half by giving sales people instant access to all the information they need
- Increase productivity by reducing data entry redundancies and errors with Everest's integrated contact manager
- Eliminate selling out of stock products by giving sales people access to real-time stock availability

eCommerce
- Double revenue without adding customer service reps by turning your eCommerce storefront into a customer self service portal
- Allow your customers to quickly repeat purchases with customer specific product lists
- Increase customer retention by displaying real-time inventory levels and order status on the Web
- Ship orders in a single day with an integrated eCommerce store and back office solution

Everest Handles Every Aspect of Your Company's Operations with a Single Solution

"The true value of Everest is that I am able to get accurate information to people faster and I only have to use one system to do it. Everest is the best investment we've made to reach our target 10-15 percent growth this year without changing our staffing model."

David Kuhman
