

FOCUS ON V2

E-commerce

Allow your customers to shop 24 hours a day, 7 days a week!

E-commerce is a real time Business-to-Business e-store. E-commerce simply interfaces with your current website to allow your customers the experience of shopping online. Customers are able to view current quantities on hand and pictures of products, sort and search by product groups, item numbers, keywords or descriptions, manufacturer and price range. Your customers can also check their open orders and their current status, view and/or print invoices, and see their aging summary.

V2 simply places a Shopping Cart button on your site that will allow your customer to logon and start shopping! E-commerce through V2 is just one of the many ways Distribution One is committed to making your business more profitable. For more information about V2 and Distribution One give us a call or visit our website today.

Providing powerful business software
for Wholesalers and Distributors.
