

# FOCUS ON V2

## Email and Fax from V2

***As simple as printing, send V2 forms to your customers or vendors!***

With a click of your mouse you can fax an order confirmation to your customer or email a purchase order to a vendor. V2 will prompt you to complete a cover page for a fax or a message for an email. All email attachments are created as PDF files, for ease of use and security. The V2 navigator bar will show the status of all emails and faxes you've sent that day. Click on "Status Viewer" to view or resend any fax or email.

Gone are the days of printing a hard copy and walking over to the fax machine, as well as searching for attachment files and email addresses. Emailing and faxing directly from V2 are just two examples of how Distribution One is committed to making your business more profitable. For more information about V2 and Distribution One give us a call or visit our website today.

Providing powerful business software  
for Wholesalers and Distributors.
