Activant® recognizes that distributors have unique needs. That is why we took our more than three decades of distribution industry experience and combined it with the power, stability and familiarity of SQL Server and Windows to create Activant Prophet 21®.

With more than 1,200 distributors currently using Prophet 21 to run their businesses, it is a leading enterprise software solution for distributors.

A Complete Solution

The reasons why are clear. Prophet 21 takes your business from order-entry to the warehouse, from financial management to purchasing and ties everything together with comprehensive inventory management functionality that keeps your business running smoothly, effectively and successfully.

Backed by a heritage of solutions that have helped generations of distributors increase sales, improve customer service and reduce operating costs, Prophet 21 functionality includes:

- Order management
- Advanced inventory management
- Wireless warehouse management
- Purchasing
- Financial management
- Customer relationship management
- Business intelligence and analysis
- PDA integration
- Web-based storefront integration
- Internet trading network integration
- Service and maintenance
- Document management
- Integrated credit card processing
- And much more

Activant Listens

Continually working to meet distributors' changing needs, Activant has established customer advisory committees to help determine what functionality to incorporate in future product releases.

Depth of Functionality

Prophet 21 enables you to complete the entire order entry process from one screen — enter orders and quotes, convert quotes to orders, expedite orders, check stock, search past invoices, verify shipping preferences and more.

Plus, Prophet 21's ability to suggest accessory items and substitutions and links to product information, improves customer service and leads to increased sales.

Unlike other programs that store information in abbreviated fields that make it difficult to find and use data, Prophet 21's SQL Server database stores data in a user-friendly format that makes the solution fully interoperable with Windows-based off-the-shelf software. This means you can easily access and export your data to such commonly used programs as Word, Excel, Access and Outlook.

Maximize Your Investment

To help you get the most out of Prophet 21, Activant offers a proven implementation plan that includes consulting and training designed to meet your unique business needs.

After implementation, Activant's online support program gives you access to support solutions 24 hours a day, seven days a week. We also guarantee, depending on your level of support, to answer your support request within 30 minutes.

As your company grows with Prophet 21, Activant offers a host of consulting and training options to help you maximize the return on your investment in Prophet 21.

If you want a highly scalable, powerful and customizable solution that is flexible and easy to navigate, Prophet 21 offers you the most advanced solution on the market today.

Activant has a long-range vision for distribution technology and the industry experts to make it happen. **Find out more today.** Visit distribution.activant.com, email distribution@activant.com, or call 1-800-776-7438 and press 1.
