Blue Link Elite is an integrated Accounting, Business Management and Inventory Management software solution, perfectly suited to the Wholesale/Distribution industry. Developed exclusively using up-to-date Microsoft technology, Elite delivers power and flexibility with ease of use, backed by the best implementation and after-sales support.

For many small/medium sized wholesalers and distributors, effective inventory management software is important, but elusive, since they are priced out of reach. Yet managing your inventory effectively can significantly impact your bottom line.

Built on Microsoft SQL Server for your back end database, Elite is robust, reliable and scales from single-user to dozens of concurrent users and handles large transaction volumes — reliably. It is very competitively priced and has a depth of functionality and degree of flexibility that is unmatched in its price range.

#### Available in the Blue Link Elite product line:

Accounts payable, Accounts receivable, Advanced landed cost tracking, Apparel matrix (style/color/size), Asset register backorder fulfillment/management, Bank management, Caseware integration, Catch weight, Commission processing engine, Contact management/CRM, Contract pricing, Crystal reports integration, Customer contract pricing, Expense tracker, Financial report writer, General ledger, Inter-company accounting, Inter-warehouse transfers, Inventory management, Inventory assemblies incl. reverse assemblies, Job costing, Lot tracking, Multi-currency, Multiple units of measure, Order entry and invoicing, Payment processing, Payroll, Point of sale, Product configurator, Production control/BOM, Purchase order, RMA, Sales budgeting, Sales order accruals, Sales order workflow, Serial numbers tracking, Service management with equipment and warranty tracking, Warehouse shipping, Web venture (B2B eCommerce).
