Solving Today's Challenges and Tomorrow's Goals

As a small or midsize business you can now get the power of comprehensive enterprise solutions that are flexible enough to grow with you. It doesn't matter if you're limited by finite time, IT personnel and finances.

SAP has leveraged its multifaceted experience into its mySAP™ All-in-One Solutions for the mid-market. Deploying on average in just 16 weeks, we've succeeded by perfecting practical approaches focused on performance, scalability and visibility and delivering best-in-class return on investment. In fact, midsize companies using SAP average a 75 % higher net profit than counterparts who don't.

mySAP All-in-One Solutions are designed to meet the needs of small and midsize businesses with industry-specific IT requirements. Supported by a comprehensive network of SAP business partners, mySAP All-in-One Solutions are micro-vertically designed, preconfigured, affordable and quickly implemented. Based on the highly scalable and powerful mySAP Business Suite solutions, mySAP All-in-One Solutions grow with your business and protect your investment long-term.

Rapid, Reliable Return on Investment

Qualified mySAP All-in-One Solutions are installed using rapid implementation techniques that can reduce costs by more than 50 % over traditional approaches. Solutions are scalable so that you invest only once - even as you change and grow.

mySAP All-in-One Solutions are created and delivered by qualified SAP business partners who bring the reliability of expertise in your industry, including tailored processes, documentation and reports.

Join the Top Performing Companies that Use SAP

SAP has a track record of fixed price, fixed schedule solutions that help mid-size companies achieve best-in-class performance and ROI. Our proven mid-market approaches focus on speed-to-value through simple deployment, easy configuration and flexible scalability. Learn more and review customer successes at our website.

Productive, Cost-Effective, Out-of-the-Box Solutions

The out-of-the-box functionality of a mySAP All-in-One Solution allows users to proficiently manage a selection of financial, supply chain, customer relationship and other processes. This generates new efficiencies across your organization and beyond to your partners and suppliers. Preconfigured, powerful industry functionality makes even unusual business applications easy to implement and run - without the need to buy special software.

Leverage Current Technology with SAP's NetWeaver™ Open Integration Platform

mySAP All-in-One Solutions are powered by the open integration and application platform, SAP NetWeaver™. SAP NetWeaver™ unifies integration technologies into a single platform and is preintegrated with business applications, reducing the need for custom integration and lowering total cost of ownership.
