Sage

Sage offers leading business management products and services that give more than 2.9 million small and medium-sized businesses (SMBs) – including more than 60,000 wholesale distributors and more than 80,000 manufacturers – in North America the insight for success throughout the lives of their businesses.

For more than 25 years, Sage has delivered easy-to-use, scalable and customizable applications through its portfolio of leading brands, including Sage Abra, Sage Accpac, ACT! by Sage, Sage BusinessVision, Sage FAS, Sage MAS 90 and MAS 200, Sage MAS 500, Sage MIP Fund Accounting, Peachtree by Sage, Sage SalesLogix, and Sage Timberline Office, among many others. These applications cover a full range of business needs including accounting, customer relationship management, contact management, human resources, warehouse management, manufacturing, specialized industry needs and more.

Sage MAS 90/MAS 200

Sage MAS 90 and Sage MAS 200 ERP systems offer small and midsized businesses a broad selection of integrated business management solutions. With full-featured accounting and distribution functionality, the products provide a combination of high-performance processing, breadth of functionality, flexibility, and ease of use.

Flexible Architecture

Sage MAS 90 is a LAN-based system that operates on Novell and Windows servers. The Sage MAS 200 suite offers client/server solutions that run on the Windows and SQL Server environments. Sage MAS 200 thin-client architecture delivers excellent performance for customers with multiple locations and personnel who work in the field. A straightforward upgrade path from Sage MAS 90 to Sage MAS 200 allows customers to retain the same flexible, stable and reliable functionality as their company continues to grow – eliminating the need to re-train or convert data.
