Jeff Gusdorf, CPA
Principal
Brown Smith Wallace Consulting Group
St Louis, MO

Dear Jeff,

I would like to extend a big thank you to Henry and yourself for your expert advice and assistance with 4D Technology's ERP selection project.

Given the amount of time and energy that we will invest in an ERP system over the next ten years, selecting the best ERP solution was a critical business decision for us. The "best" solution is one that facilitates our business model, our products and our customers. Brown, Smith and Wallace did an outstanding job of guiding us through the maze of products and functionality, and of helping us understand the total investment of time, money and resources that each system truly required.

I am confident that we made a sound decision and that we will stand by our decision over the coming years.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Chris Lesadd', is written over a light blue horizontal line.

Chris Lesadd
Director of Operations
4D Technology Corporation

4D Technology designs and manufactures non-contact measurement systems for verifying the quality of optics and precision surfaces. Applications include astronomy, aerospace, general optics, flexible electronics and displays.
