Infor warehouse management solutions give distributors best-of-breed methodology for managing the movement of goods both inside and outside the organization.

#### We offer:

- Inventory location management (paper-based or wireless)
- Bar code label generation
- Handheld and forklift-mounted wireless terminals
- Wireless cycle and physical count system via Radio Frequency (RF)
- Automatic drop ships from branch locations to fill customer needs responsively and cost-effectively
- Kitting and light manufacturing with the ability to account for and track, internal and external labor components
- Compliant with multiple carriers, online shipping manifest and package tracking systems, as well as signature and document management
- Third-party tracking numbers and freight charges stored with order detail for quick reference and in-depth analysis

Our products provide a departmental solution to warehouse productivity and accuracy and are designed to address issues of warehouse workflow including receiving, product movement, shipping, picking and counting. These warehouse tasks are managed centrally in a real-time environment and supported through Radio Frequency (RF) data collection devices that are carried by warehouse workers.

This approach to managing the warehouse allows productivity gains while increasing inventory and order fulfillment accuracy.

With more than 30 years of experience in distribution, we have a proven track record of helping distributors improve their bottom lines. Infor Distribution Essentials provides a fully integrated set of applications that support your fundamental business needs with financial, inventory, warehouse, sales, business analysis and customer service functionality, including:

- World-class ERP
- Supply chain management
- Financial management
- eBusiness
- Customer relationship management
- Warehouse management
- Enterprise performance management
- Supplier relationship management
- Product lifecycle management

Our solutions are available on a variety of operating environments including UNIX, Linux, Windows and OS/400.

Whether you have 5,000 employees or five, our solutions are positioned to grow as you do, protecting your software investment.

Check out all of our solutions on our website or contact us by email or phone.
