Faster. Higher. Stronger.

If your warehouse operations can't promise those achievements, you aren't delivering the goods.

Remember those promises you made?

- faster order turnaround times
- higher profit margins
- stronger customer loyalty
- reduced warehousing costs
- increased throughput volumes

Thanks to TECSYS warehouse management software, those are no longer olympic-sized tasks. The era of real enterprise visibility for the warehouse is here. Today.

Flawless High-Volume Order Fulfillment

- Process from one to thousands of line items per order at the same time.
- Mix "each", "inner", "case", and "pallet" quantities on same order.
- Process 100,000+ lines per week.
- Process 10,000+ orders per week.
- Ship using multiple carriers simultaneously with parcel, LTL, full truck, and private fleet.
- Handle Big Box, Mom & Pop, and DC transfers, with differing requirements for each.

Reduced Order Turn-around Time

- Cut normal orders from 2-3 days to "in by 4:00, out same day".
- Shorten rush orders from hours to minutes.
- Reduce cycle time for large orders using coordinated team picking.

Reduced Labor and Steps for Picking/Shipping

- Automatically determine final container before picking.
- Pick multiple orders simultaneously into final cartons.
- Eliminate packing/checking steps and bottlenecks with accurate bar code scanning.
- Eliminate manual sorting/resorting of paper pick lists.

Real-time Control of Complex DCs

- Stock 100,000+ SKUS, plus non-stocks orders.
- Support wide product variances: weights, cubes, dimensions, nesting.
- Simultaneously process multiple units of measure: "each", "pack", "case", "pallet".
- Satisfy critical tracing/compliance requirements: FDA, lot/expiration, serial, recall, etc.

Accurate and Timely Receipts

- Process many parcel/LTL deliveries/import containers.
- Handle a wide variety of receipts: 10 to 500 lines, "eaches" to "pallets".
- Simultaneously receive multiple small POs without presorting.

Global Internal and External Visibility

- Experience cross-application information accessibility and information sharing.
- Enhance operations through the use of graphics/electronic documents.
- Collaborate with suppliers/customers via self-service Web access.

From the front office, through the warehouse and out over the road, TECSYS puts personalized, real-time information right at your fingertips.
